Part III REASONS FOR ALLOWANCE

1. The following is an examiner's statement of reasons for allowance: The prior art of record does not teach, disclose, or suggest the claimed limitations of (in combination with all other limitations in the claim), a facsimile controller comprising a console including a control panel for instructing operation of the facsimile controller, a central processing unit for controlling operation of the facsimile controller; a modem for transmitting and receiving image data in modulated form, the modem comprising memory means for storing an object program containing a plurality of control procedures each of which executes successive communication processes, including a plurality of operational modes, the image data transferred between the memory means and the facsimile controller, switching means for switching between a plurality of operational modes responsive to the object program in accordance with a predetermined unit of the control procedures, and control means for executing the control procedure corresponding to the operational mode just switched as claimed in claim 21. Similar features are claimed in claims 23, 24, 25, 28-32, and 34-50. Therefore, claims 23, 24, 25, 28-32, and 34-50 are allowable over the prior art of record for the same reasons.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
